Re: Adults on grounds

Dear Parents/Guardians

Given the welcome change to our weather patterns I know many of you look to get outside and find a nice area to take a walk. Our track seems well suited for this, but the reality is we cannot have adults that are not School District employees or volunteers walking the track during our school day (supervised site from 8:15-2:35). This policy is in place to ensure that we keep your children safe and I know that this initiative is respected by all in our community. I thank you for adhering to this code of conduct here at Albert McMahon.

On another note, the track has been groomed and prepared for the school district track meet and on occasions I have returned to the school in the morning to find that a member of our community has used the track for dirt biking. If you could support us in making sure that any family members you may have do not use it for this purpose it would be greatly appreciated by all elementary schools in Mission. Enjoy the spring weather!

Sincerely,

D. Cyr
Principal
