

URGENT

September 19, 2017

There are many students in our school with **extreme allergies** to nuts and nut products that require the use of an Epi-pen. The nuts and nut products include peanuts, peanut butter, peanut flour, cashews, pistachios and any tree nut.

Prevention is the best approach, thus we are requesting your cooperation in refraining from sending any food products containing nuts to school with your child.

Our goal is to make the school a safe environment for all students and to become an allergy-aware school. If you have any questions, please contact me at the school.

Thank you for your understanding in this matter.

Mrs. Hardeep Grewal
Principal
