

## May 2019

Dear Parents/Guardians of Albert McMahon Students:

It is the busy season at Albert McMahon! With classroom field trips, special events, athletics and classroom projects, students have a lot to focus on. Please continue to engage with your child on a daily basis about their experiences at school, daily reading, current events, etc. and contact the classroom teacher or myself if there are any concerns.

Thank you to all our students and families that participated in the Jump Rope for Heart fundraiser. The final tally is being calculated and will be announced in the next week or so.

Student athletes and staff are preparing for our discus/shot put competition this week as well as the district track meet next week. Go Phoenix!

Grade 6 students will have tours of their middle school this month. The visits are intended to give them an idea of what their schedule will be like next year, course offerings, meet some staff and students, plus answer any questions. I have noticed some excitement and anxiety in students already for next year. We will do our best to support a positive and successful transition for each student. Let us know if there is anything else that is needed.

**"Welcome to Kindergarten"** is booked for May 31<sup>st</sup> in our gym for our group of new kindergarten students starting in September. If you know of a family with a child that hasn't registered yet for school, please encourage them to register as soon as possible.

Lastly, please encourage your child to bike safely to school and to walk their bike while on school property. There have been instances of riding bikes on sidewalks

and in the bus lane during the morning rush. Thankfully, the winter weather is behind us!

Sincerely,

Hardeep Grewal  
Principal

Cyndie Anderson  
Vice-Principal

**Test of Alert Ready, Canada’s Emergency Alerting System  
Scheduled for May 8, 2019 in most provinces and territories during Emergency  
Preparedness Week**

*Test Alerts will be broadcast on Television, Radio and Compatible Wireless Devices in most provinces and territories.*

**Oakville, Ontario, May 3, 2019** - On May 8, 2019, most provincial and territorial emergency management organizations will be issuing public test messages through Alert Ready, Canada’s emergency alerting system. Each participating province or territory will issue one test message to be distributed over television, radio and compatible wireless devices at the times indicated below.

The most recent test of the Alert Ready system occurred on November 28th, 2018.

“While more than 120 emergency alerts have been successfully transmitted to Canadians over television, radio and wireless devices since April 2018, having regular tests allows us to better educate Canadians about Alert Ready and provide an opportunity to validate and improve the end to end performance and reliability of the system,” says Martin Belanger, Director of Public Alerting at Pelmorex, operator of the technical infrastructure of Alert Ready, known as the National Alert Aggregation and Dissemination System.

Many wireless service providers have already sent SMS text messages to their subscribers notifying them of the upcoming May 8th test. It is important to note that receipt of that message does not mean that a device is compatible to receive wireless emergency alerts. Device compatibility, software version, phone settings and connection to an LTE network can impact whether the alert is received. As more compatible wireless devices are sold in Canada, more Canadians will be able to receive emergency alerts on their wireless device.

<b>Alert Ready Test Times - May 8, 2019</b>	
<b>Province/Territory</b>	<b>Test Time</b>
Alberta	1:55 PM MDT
British Columbia	1:55 PM PDT
Manitoba	1:55 PM CDT
New Brunswick	10:55 AM ADT
Newfoundland & Labrador	10:55 AM NDT (10:25 AM ADT in Labrador)

Northwest Territories	1:55 PM MDT
Nova Scotia	1:55 PM ADT
Nunavut	1:55 PM EDT
Ontario	2:55 PM EDT
Prince Edward Island	12:55 PM ADT
Quebec	No Test Scheduled due to Flooding
Saskatchewan	1:55 PM CST
Yukon	1:55 PM PDT

The Alert Ready system was developed with many partners including federal, provincial, and territorial government agencies, Pelmorex, the broadcasting industry and wireless service providers. It has enabled government authorities to deliver emergency alerts to Canadians during threat-to-life situations over television and radio since 2015, and to compatible wireless devices since April 2018.

Test alerts demonstrate what an emergency alert will look and sound like in the event of a life-threatening situation. Alert Ready was designed to deliver critical and potentially life-saving alerts to Canadians. Given the importance of warning Canadians of imminent threat to the safety of life and property, Canadians do not have the option to opt-out of this essential life-saving service.
