

FASD awareness day comes to Mission
Sunday September 8, 2019
10 am- 12 pm
Griner Park, Mission, BC

One of Mission Public Schools parents/EA has partnered with Malgosia, FASD keyworker at the Fraser Valley Child Development Centre to facilitate a new annual celebration day for families and community members of the Fraser Valley.

This event presents a great opportunity to network with families/caregivers supporting youth with Fetal Alcohol Spectrum Disorder and other neurodevelopmental conditions.

There will be someone teaching yoga in the park, activities for kids followed by a cake to celebrate the day.

Please help spread the word 😊
Our children/families deserve a day like this, even if it's small!!

For more information, here is the FB Event invite:
